Study tips for Finals Week

Where to study

1. Leave your house, you will get too comfortable.
 2. If you plan on studying at the library, then go to lesser known ones. Moffitt library as well as others are at max capacity during this week.
 3. Coffee and milk tea shops work too, but they get very noisy or tight.
 4. If neither of the above options work, then use your home or be patiently camp a spot.
- Besides, the libraries are open 24/7.

Study health

5. When studying, make sure to follow the 20, 20, 20 rule. Every twenty minutes, look at something 20 feet away for 20 seconds. This prevents eye strain.
6. Don't forget to take care of yourself with daily needed essential sleep and proper nutrients. Bring snacks and/or fruit, just don't eat them late at night because you do not need all that late energy.
7. Take breaks or naps. Try going for 20 minutes for getting back into alertness. Less than 45 minutes to be within memory recovery. 45-90 minutes gets you groggy, so go for 90 minutes for a complete cycle of sleep.

Miscellaneous

8. Ask for help because you'd rather not be stuck in one thought when it's easier if someone else had the answer. Study partners are awesome!
